

Psychiatric Nurse Practitioner

Everest Health Counsel seeks and attracts top-notch professionals who excel in their work and thrive on breaking new ground, working outside the box, collaboration, and the opportunity to rewrite the story of health care in Maryland one member at a time.

Nurse Practitioner should have experience in the areas of mental health, substance abuse and developmental disabilities. They will act as a key player in multidisciplinary treatment team. The ability to adapt to various agency cultures as a representative of Everest Health Counsel is essential.

- Provide direct care services (on and off site), including Assessments and evaluations, Evaluation of psycho-pharm regimen, Medication education for staff and clients, Ongoing medication management, and oversee other nursing staff
- Consult with DDA, medical and social service agencies as necessary
- Participate in staff development programs
- Receive clinical supervision as needed
- Provide timely completion of all required documents associated with the above listed services
- Contribute to positive work environment and overall team effort

Interpersonal Skills and Attributes

- Entrepreneurial, proactive, and excited to be part of an initiative that breaks new ground in the field of primary care.
- Personal and professional track record that demonstrates a commitment to the mission and health care philosophy of Everest Health Counsel.
- A positive attitude – ability to work hard, be flexible, and operate efficiently in a fast-paced, start- up work environment and in a highly complex and dynamic industry sector.
- Strong interpersonal communication skills and the ability to work collaboratively on cross functional teams.
- Providing mentorship and leadership for the team.
- Self-reliant, excellent problem solver, results oriented.
- Ability to make decisions in a changing environment and anticipate future needs.
- Commitment to professional development and teambuilding

Education/ Licensure/ Certification

- Family or Adult Psychiatric Nurse Practitioner, preferably with at least 2 years of clinical experience as an NP in a family practice setting, working with infants, adolescents, and adults
- Graduate of Accredited nursing practitioner program with Master of Science in Nursing (MSN) or Doctorate of Nursing Program (DNP)
- Minimum of 2 years post-training experience in primary care medicine
- Unrestricted license to practice within the state of Maryland
- Current DEA certificate without restriction
- BLS and ACLS required; active CPR certification
